NAISS Actvity report for project NAISS 2025/22-309

- Author: Richel Bilderbeek

The project has been used to teach 4 iterations of the NAISS 'Intro to Python' course, with 48 learners in total. Of these, 8 learners used Alvis.

The course achieves 82-%95% of all its learning outcomes, as is concluded from the results of anonymous evaluations. All evaluations can be found at
https://uppmax.github.io/naiss_intro_python/evaluations/ .
